LebensMut
stärker als Sucht

Courage to face life – stronger than addiction

The Therapieverbund Sucht combines the treatment options of the Caritasverbands der Erzdiözese München und Freising e.V.

With the joint message „courage to face life – stronger than addiction“ we are trying to encourage as many affected individuals as possible to change their current life.

For people who have the courage to take the first step, we can offer further information and personal counseling as well as advice to various forms of addiction and possible treatment options.

„We complement each other, that’s why we fit together so well.“

Our counseling- and treatment centers treat addiction to medication, illegal drugs, alcohol, nicotine, pathological gambling and eating disorders

We understand your problem

Abuse of and addiction to alcohol, medication or illegal drugs is not an inevitable fate that you have to helplessly surrender to. This also applies to other addictive behavioral manners such as pathological gambling or pathological media use. Substance addiction or other forms of addictive behavior are often related to relationship issues, problems in life or family conflicts.

Help and assistance is possible if you are willing to confront your problems and if you are willing to actively collaborate in finding a solution. The first step, and also the most important step, is to overcome your anxiety and fear to contact our counseling center.

***„Do the first step –
that will change your life.“***
